New Era Progressive Baptist State Convention Inc. Successful Family Conference

This year's March Board Meeting included our first Family Conference. Last year during the annual session President Woods challenged the Educational Department to develop a Family Conference to be a part of the March Board Meeting 2009. The attendance far surpassed all expectations with classes full of delegates both youth and adults.

Yes this is a New Era based on old principles and solid doctrines found in the truth of the Word of God. The Biblical approach to marriage and family values were outlined and elaborated on by qualified instructors touching sensitive subjects such as, sex in the marriage, subjection in the marriage, the roles of men and women in marriage, and more.

This Family Conference produced an

atmosphere of concern for the family, as well as a zeal to become proactive in family matters. Whereas, we also engage to maintain family and secret devotions; to religiously educate our children is a quote from the Baptist Church Covenant.

The class instructors were: Rev. Robert Alexander, - Men's Class
Rev. Wayne Ellis - Women's Class
Rev. Deron McDaniel - Youth
Rev. Adam Mixon - Summary

Opportunities were afforded to the delegates to address questions to a panel of Pastors concerning Family Matters. This was a first but because of the success of such an event it is expected that more will come in the future. Thanks you Bro. President for your leadership.

NEPBSC Inc. Moving Forward

President Woods unveiled his plans for improvements and projects in the Convention for this year. Rev. Woods emphasized again the sole purpose of the Convention is "Mission and Education." The four boards that make up the Convention are: Educational Board, Home Mission Board, Foreign Mission Board, and the Evangelical Board. Every Auxiliary is proficient in the educational arena but we need to improve our efforts to give more resources toward the mission arena. In order to incorporate every member of the New Era Progressive Baptist State Convention into mission and education President Wood has recommended a plan to make this possible.

'Quarters Across The Waters

NBCA Inc, International Foreign Mission is responsible for caring and equipping schools, hospitals, churches, missionaries, doctors, teachers, technicians with the necessary funds to operate. NEPBSC of Alabama is committed to being a part Foreign Mission. Thanks to God for inspiring President Woods with the ideal of how we can quickly respond to this endeavor.

The easy but effective ideal is to simply fill 10 cups per church with quarters and each cup with hold \$100.00. Yes quarters! If 20 Churches fills 10 cups each with quarters we will have reached the goal of \$20,000.00. Before we left the Meeting six cups were already filled. Join the excitement and let's start sending "Quarters Across The Waters." This project concludes in 90 days. Please make your reports to the office of President Woods at the Hopewell Baptist Church. There are more cups available.

NEPBSC Inc. Moving Forward

The recommendations are as follow:

Education Board headed by Dr. Monroe Tucker will be assisted by the WIA Auxiliary,

Evangelical Board headed by Rev. Alphonso Hires will be assisted by the Brotherhood Auxiliary.

Home Mission headed by Rev. Elbert Jones will be assisted by Minister Wives & Widows.

Foreign Mission headed by Dr. Quinton E. Hammonds will be assisted by Senior Women, Usher, and Health Awareness Auxiliaries.

The immediate financial goal for the Convention is to give the NBCA Inc. Foreign Mission \$20,000.00 to help support workers in the mission field. This will be accomplished through what is called, "Quarters To Send Across The Waters." The BROTHERHOOD Auxiliary took the lead in giving a generous offering with The WIA, MINISTER'S WIVES AND WIDOWS, and MINISTER'S following. Praise God! Note: This is a project of the State Convention; no individual Church will receive credit.
